

Mike and Eddie,

We wanted to let you know how very pleased we are with our new pool. Everything was fantastic!

We considered the pool a major purchase and were concerned about the entire process. Well, at least I was, the kids were just counting the days until they could get in the pool.

You and your staff were outstanding from beginning to end. From your first visit we knew we had made the right choice. Every day that your team worked at our home, they were respectful and hard working, especially in the scorching temperatures of August.

You worked well with our other contractors and the county inspectors and kept the project as close to schedule as possible despite the weather and inspector delays.

Even with the late season start we were able to enjoy several days and nights in our new heated pool and extended patio.

The customer service that you provided after the completion of the job is also world class. We have heard the nightmares that friends with pools have experienced during and after installations, but we can honestly say that they must have chosen the wrong contractor, because our experience was AWESOME!

My family thanks you very much. We look forward to continuing to be your customers for a long time.

Danner and Denise Hawkins
