Dear Eddie and Mike,

We would like to take this opportunity to thank you for our beautiful pool.

It was a pleasure doing business with your company. You and your crew work very hard and the results show now with our pool. How nice it is to see it every morning when we look out in the backyard, what a great addition.

Anytime we had a question or a concern you were always quick to get back to us to find out what we needed or to answer any questions that we had to ask. You always made us feel as though we were your top priority and we appreciated that very much.

We know that you will be successful for many years to come due to the manner in which you treat your customers. We found you to be true to your word and that is a rare commodity in this day and age.

Once again, THANK YOU, for your services. We are happy to have made the right choice in having Laurel Pools construct our pool!

Sincerely,

Leandro and Diane Fina
